IVI Researchers attended the 7th International, Digital Business Research Day, Portugal.

In May, a delegation from the Innovation Value Institute attended the 7th International, Digital Business Research

Day in the historic University of Coimbra in Portugal. The conference is one of the key events and get-together within the Digital Business Network between the IVI, the Digital Business Institute at the University of Applied Sciences Upper Austria, Campus Steyr, and the Department of Informatics Engineering at the University of Coimbra, Portugal. The conference provides a platform for researchers and research students to exchange ideas, and present and discuss ongoing research. IVI's Simon Hanratty, Andrea Tordecilla Sanders, Sana Kiran and Maryam Narwaz got great value from presenting their research, while Dr. Zohreh Pourzolfaghar and Prof. Markus Helfert were also in attendance. The conference included a keynote speech from Professor Antonio Dias de Figueiredo on the "turn" of AI in Digital Business Research and a visit to IPN (Instituto Pedro Nunez), a technology research centre and accelerator associated with the University of Coimbra.

PPI Focus Group- Empowering Health

and Wellbeing

Marco Alfano hosted in Innovation Value Institute yet another fantastic PPI focus group in May, welcoming senior citizens from various Irish counties. Together, they delved into scenarios and use cases for the intelligent health assistant, aimed at empowering individuals in their journey toward better health and wellbeing. Participants offered a diverse range of insights, contributing valuable ideas that directly inform research tailored to their needs.

Book Launch: *Human Intelligence and Artificial Intelligence* by Professor Piero Formica

Innovation Value Institute is delighted to invite you to our Book Launch & Networking event at a special reception on June 26th at 6.30pm, which will be an intellectual and social highlight of the 2nd International Digital Health Summer School at Renehan Hall, Maynooth University South Campus.

As a core part of the second international Digital Health Summer School in Maynooth University, Professor Piero Formica, IVI Senior Fellow will launch his new book *Human and Artificial Intelligence*. Artificial Intelligence is one of the most seminal technology developments in the history of the human species and Prof. Formica's book will discuss the intersection and synthesis of Human and Artificial Intelligence in an elegant and intellectual masterpiece.
